

MA-Phlebotomy Background Attestation Form

Attestation of Review of the Background Check Requirements

A criminal record may possibly prohibit a student from obtaining state licensure. The Washington State Department of Health will obtain background checks for licensure purposes through the Washington State Patrol and the Federal Bureau of Investigation. While, Green River does not run a criminal background check on students, they are highly encouraged to visit: <https://www.dshs.wa.gov/fsa/background-check-central-unit/disqualifying-list-crimes-and-negative-actions> for a list of certain criminal convictions, pending charges, and negative actions that automatically disqualify a person from having unsupervised access to vulnerable adults, juveniles, and children. Green River is not responsible for students who cannot license due to criminal convictions, pending charges or negative actions.

I have read and understand this information about the Washington State Department of Health requirements regarding background checks for licensure. I understand that in signing this it is my responsibility to ensure that I do not have any criminal convictions, pending charges, and negative actions that automatically disqualify me from licensure.
