

## Unduplicated Course Enrollment Trends by Race/Ethnicity

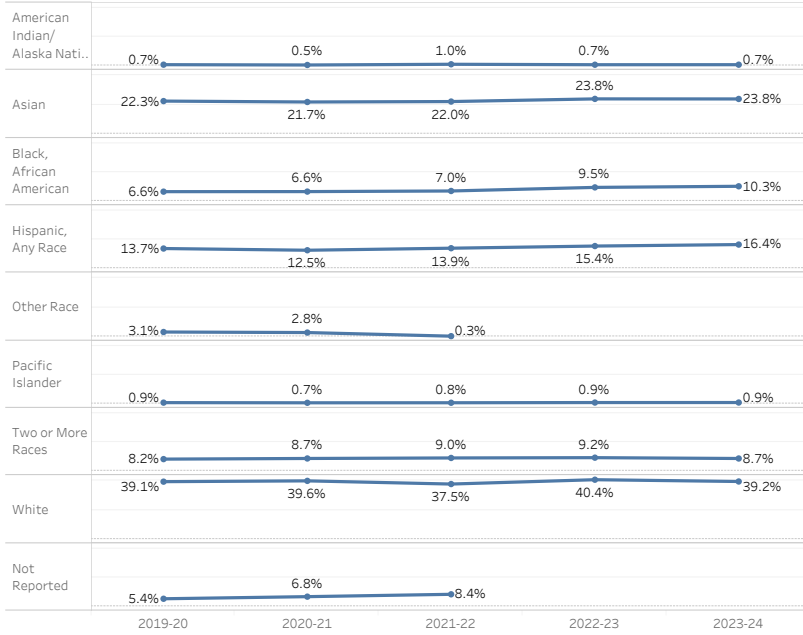

This dashboard shows course enrollment (**unduplicated headcount**) for all courses and departments. It is disaggregated by race/ethnicity to enable a deeper dive into trends and patterns.

Filters, such as Department, Courses, and Student Category allow for focused selection of specific variables for examining different contexts. The following 3 tables show course enrollment by race/ethnicity, student of color and white students, and historical underserved students of color.

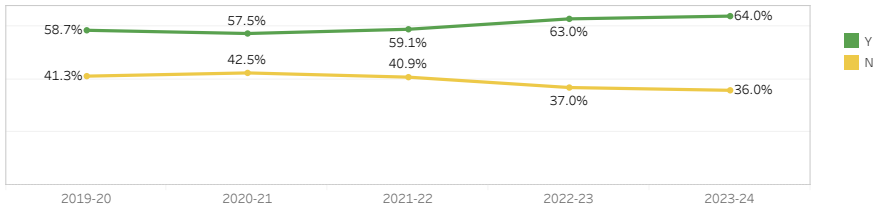

(Students with Not Reported Race were excluded; Any group of students less than 10 is suppressed)

**Quarter** All     
 **CAMPUS** All     
 **Department** All     
 **COURSE** All     
 **STUDENT CATEGORY** All
