

DID YOU KNOW?

Around 500 million people around the globe speak Spanish.

Green River College (GRC) teaches language using the communicative method, while exposing students to the multiple cultures in which this language vibrates and exists.

GRC provides a variety of modalities to take classes: Virtual, face to face on campus Mondays through Thursdays, and courses that are hybrid, combining face to face days with virtual days.

GRC Spanish classes are small, taught by dedicated instructors, and supported by a Language Center that offers tutoring free of charge for students daily.
